When? November 4-8, 2019
Where? RPC Building, Room 142
Elizabethtown Community & Technical College
600 College Street Road
Elizabethtown, KY 42701

The DRI International Foundation's Veterans Outreach Program was created to help qualified veterans transition into civilian careers in the business continuity and resilience field. We've mapped how your experience in the service coincides with a career in business continuity and resilience-related fields. We can show you how what you did in the military is very close to what you can do in a resilience career in both the private and public sectors.

About the Course

DRI's seminal course, Business Continuity (BCLE 2000), enables you to build a business continuity program based on the most up to the minute information and the most utilized and time-tested standard in the field – the DRI International Professional Practices for Business Continuity Management.

Instruction includes new and expanded coverage of cloud computing, cyber threats, supply chain, risk transfer, insurance considerations, legal and regulatory requirements, and manufacturing processes, as well as more traditional topics such as evaluating risks, gaining leadership buy in, crisis communications, and program audit. An experienced instructor

using real-world examples and interactive workshop exercises will walk you through the key elements of business continuity management, making this the perfect course for those who are relatively new to the profession and want a thorough, leave no stone unturned educational experience. The course is designed to give you all the tools you need to pass the Qualifying Examination and continue on the path toward becoming a DRI Certified Business Continuity Professional (CBCP) or Associate Business Continuity Professional (ABCP).

DRI International Certifications

As the leading business continuity training organization worldwide, DRI has certified more than 15,000 professionals in over 100 countries. DRI offers peerless programs in business continuity, business continuity auditing, healthcare continuity, risk management, and public sector continuity – certification that's attractive to potential employers. In fact, DRI Certified Professionals historically out-earn their peers.

The Veterans Outreach Program Scholarship

Through our Veterans Outreach Program, the DRI Foundation established an industry-first "giving-back" scholarship program to active duty or recently separated (within five years) military veterans. The scholarship will include, at no cost to qualified candidates, admission to a DRI International (DRI) business continuity educational course, all course materials, qualifying examination, and all application fees – valued at over \$3,000.
